PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION - Keep away from feed or foodstuffs. Wear rubber gloves when handling this product.

FIRST AID

HAVE THIS LABEL WITH YOU WHEN OBTAINING TREATMENT ADVICE

IF SWALLOWED
• Call a Poison Control Center, doctor or 1-800-858-7378 immediately for treatment advice.
• Have person sip a glass of water if able to swallow.
• Do not induce vomiting unless told to by a poison control center or doctor.

IF ON SKIN OR CLOTHING
• Take off contaminated clothing.
• Rinse skin immediately with plenty of water for 15 to 20 minutes.
• Call a Poison Control Center, doctor or 1-800-858-7378 immediately for treatment advice.

IF IN EYES
• If in eyes hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present after 5 minutes, then continue rinsing.
• Call a Poison Control Center or doctor for treatment advice.

NOTE TO PHYSICIAN: If ingested, administer Vitamin K1 intramuscularly or orally as indicated inbishydroxycoumarin overdoses. Repeat as necessary based on monitoring of prothrombin times.

ENVIRONMENTAL HAZARDS - This product is toxic to fish and wildlife. Do not apply this product directly to water or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment wash waters.

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

NOTE: THIS LABEL MUST BE IN THE POSSESSION OF THE USER AT THE TIME OF PESTICIDE APPLICATION.

USE RESTRICTIONS: This product is only for use in manual subterranean applications to control valley pocket gophers (Thomomys bottae), northern pocket gophers (T. talpoides), Mazama pocket gophers (T. mazama), Townsend’s pocket gophers (T. townsendi), giant pocket gophers (T. bulbiurosus), Sierra pocket gophers (T. monticola) and plains pocket gophers (Geomys bursarius).

This product is to be used around homes.

Do not apply this product above the ground surface. Do not apply this product by use of a mechanical burrow builder machine or any other type of mechanical application equipment, including mechanized probes. Do not broadcast bait.

BAITING: Place baits in main runways. To locate a main runway, probe 12 inches to 18 inches from the surface mound on the side which is flattened or depressed, using a burrow probe or a smooth metal rod. When resistance on probe suddenly decreases, probe is in the main runway. Open the runway with the probe, a spade or a shovel. Place one ANSWER® BAIT BLOCK® into each opening of the runway and cover the opening securely to exclude light. Do not permit the loose soil to cover bait.

Place baits at two or three locations in each main burrow (runway) system. A pocket gopher will normally travel to all portions of its burrow system within a few days. As some gophers may die above ground, check the area periodically for 10 to 15 days after treatment. Bury or incinerate (if permitted locally) any dead animals found. If pocket gopher activity persists 2 weeks after treatment, bait active burrow a second time.

NOTICE: Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith. The efficacy of the product may be reduced under high moisture conditions.
1. PRODUCT IDENTIFICATION

Product Name: GOPHER GETTER TYPE 2 BAITS BY WILCO AG (RESTRICTED USE PESTICIDE)
EPA Signal Word: CAUTION
Active Ingredient (%): Diphacinone (0.005%) CAS No.: 82-66-6
Chemical Name: 2-Diphenylacetyl-1,3-Indandione
Chemical Class: An indandione-type anticoagulant rodenticide.
EPA Registration Number: 36029-23

Section(s) Revised: Regulatory Review

2. HAZARDS IDENTIFICATION

Symptoms of Acute Exposure
Slightly irritating to the eyes. The active ingredient is designed to cause bleeding after repeated ingestion.

Hazardous Decomposition Products
None known

Physical Properties
Appearance: Green 1/8" Diameter, milo grain
Odor: Slight anise

Unusual Fire, Explosion, and Reactivity Hazards
None known.

4. FIRST AID MEASURES

Have the product container, label, or Safety Data Sheet with you when calling a poison control center or doctor, or going for treatment. FOR A MEDICAL EMERGENCY INVOLVING THIS PRODUCT CALL 1-800-498-5743 (U.S. Medical Emergencies) or 1-651-523-0318 (International Medical Emergencies, Collect Calls will be accepted).
Ingestion: CALL PHYSICIAN OR POISON CONTROL CENTER IMMEDIATELY! Have the person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

Eye Contact: If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

Skin Contact: If on skin or clothing: Take off contaminated clothing. Wash skin with soap and water.

Inhalation: Not applicable.

Notes to Physician
This product contains anticoagulants with an effect similar to warfarin in that they act by interfering with the synthesis of prothrombin. The specific measure is the prothrombin time. Note this may not become prolonged until 12-18 hours after ingestion. The specific antidote is Vitamin K₁ (Phytonemandione BP).

Antidote must be administered under medical supervision. Initially, antidote should be given by injection (10-20 mg, or 0.25 mg/kg for children, by slow intravenous infusion at a rate of 1 mg/minute. In severe cases the use of fresh frozen plasma may be required). Maintenance treatment is given orally (40 mg/day in divided doses for adults; up to 20 mg/day in divided doses for children). The prothrombin time and the hemoglobin should be monitored. Patients should be kept under medical supervision until the prothrombin time has been normal for 3 consecutive days. Oral treatment may need to be continued for several weeks. (20 mg/day in divided doses for adults, and up to 20 mg/day in divided doses for children). (For animal cases the dose is 2-5 mg/kg).

Medical Condition Likely to be Aggravated by Exposure
Bleeding and other conditions which may be aggravated by extended clotting time.

5. FIRE FIGHTING MEASURES

Fire and Explosion
Fire and Explosion
Flash Point (Test Method): Not Applicable
Flammable Limits (% in Air): Lower: % Not Applicable, Upper: % Not Applicable
Autoignition Temperature: Not Available
Flammability: Not Flammable
Extinguishing Media: Fog or Water Spray, Foam, Carbon Dioxide, Dry Chemical

Hazardous Decomposition Products:
None known.

Unusual Fire, Explosion, and Reactivity Hazards
None known.

In Case of Fire
Potentially hazardous in fire. Wear self-contained breathing apparatus. If water is used as an extinguishing media, diking is required to keep contaminated water out of all water supplies.

6. ACCIDENTAL RELEASE MEASURES

In Case of Spill or Leak
Control the spill at its source. Clean up spills immediately, observing precautions outlined in Section 8. Sweep up material and place in a compatible disposal container. Once all material is collected, seal container and arrange for disposition.

7. HANDLING AND STORAGE

Store the material in a well-ventilated, secure area out of reach of children and domestic animals. Do not store food, beverages or tobacco products in the storage area. Prevent eating, drinking, tobacco use, and cosmetic application in areas where there is a potential for exposure to the material. Wash thoroughly with soap and water after handling.
8. EXPOSURE CONTROLS/PERSONAL PROTECTION

THE FOLLOWING RECOMMENDATIONS FOR EXPOSURE CONTROLS/PERSONAL PROTECTION ARE INTENDED FOR THE MANUFACTURE, FORMULATION, PACKAGING, AND USE OF THIS PRODUCT.

FOR COMMERCIAL APPLICATIONS AND/OR ON-FARM APPLICATIONS CONSULT THE PRODUCT LABEL.

Ingestion: Prevent eating, drinking, tobacco usage and cosmetic application in areas where there is a potential for exposure to the material. Wash thoroughly with soap and water after handling.

Eye Contact: Eye protection is not required for normal handling. Where eye contact is likely, wear tight-fitting chemical goggles.

Skin Contact: Gloves are not required for normal handling. Where heavy contact is likely, wear chemical resistant (such as nitrile or butyl) gloves.

Inhalation: Respiratory protection is not required for normal handling. In the event of an unusual dust exposure, use engineering controls or a NIOSH-approved particulate respirator (N, P, R, or HE filter) to keep exposure below the Occupational Exposure Limit.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance: Green 1/8” Diameter, milo grain
Odor: Slight anise
Melting Point: Not Available
Boiling Point: Not Available
Specific Gravity/Density: Bulk Density .740 g/ml pH: Not Available
Solubility: Insoluble
Vapor Pressure (mm Hg): Not Available
Vapor Density: Not Available

10. STABILITY AND REACTIVITY

Stability: Stable under normal use and storage conditions.
Hazardous Polymerization: Will not occur.
Conditions to Avoid: None known.
Materials to Avoid: None known.
Hazardous Decomposition Products: None known.

11. TOXICOLOGICAL INFORMATION

Acute Toxicity/Irritation Studies (Finished Product)

Ingestion: Low Toxicity
Oral (LD₅₀ Rat) : > 7 mg/kg body weight (Diphacinone Technical at 98% active)
Oral (LD₅₀ Rat) : > 46,000 mg/kg body weight

Dermal: Not Available
Dermal (LD₅₀ Rat) : See “Other Toxicity Information,” Section 11

Inhalation: Not Available
Inhalation (LC₅₀ Rat) : See “Other Toxicity Information,” Section 11

Eye Contact: See “Other Toxicity Information,” Section 11
Skin Contact: See “Other Toxicity Information,” Section 11
Skin Sensitization: Not Available
**Other Toxicity Information**

Systemically toxic concentrations of this product will probably not be absorbed through human skin.
Because of the formulation of this product, inhalation is not expected to be a normal route of exposure.
No irritation is likely to develop following contact with human eyes.
Irritation will probably not develop following contact with human skin.

Effects of overexposure are those of anticoagulant overdose, i.e., reduced blood clotting ability with spontaneous bleeding in various organs. Body accumulation can result from repeated exposures. Individuals with blood clotting disorders may be more susceptible to overexposure effects.

**Toxicity of Other Components**

- Grains: Not Available
- Flavorings: Not Available

**Target Organs**

*Active Ingredients*  
Diphacinone Technical: Blood

*Inactive Ingredients*  
- Grains: Not Available  
- Flavoring: Not Available

12. ECOLOGICAL INFORMATION

Do not discharge effluent containing this product directly to water. Do not contaminate water when disposing of equipment wash water.

13. DISPOSAL CONSIDERATIONS

**Container Disposal**

- *Plastic Containers:* Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.
- *For containers 1 gallon or less:* Do not reuse empty container (bottle, can, bucket). Wrap container and put in trash.

**Pesticide Disposal**

Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

14. TRANSPORT INFORMATION

**DOT Classification**

- Proper Shipping Name: Rodenticides with Diphacinone.
- Hazard Class: Not Applicable
- UN Number: Not Applicable
- Packing Group: Not Applicable
- Label: Not Applicable
- Special Instructions: Not Applicable

**IMDG Classification**

- Proper Shipping Name: Rodenticides with Diphacinone.
- Hazard Class: Not Applicable
- UN Number: Not Applicable

Label: Not Applicable

15. REGULATORY INFORMATION

EPA SARA Title III Classification
Section 311/312 Hazard Classes: Exempt for low concentrations of Hazardous ingredients in mixture.
Section 313 Toxic Chemicals: Not Applicable

California Proposition 65
Not Applicable

CERLA/SARA 302 Reportable Quantity (RQ)
None

RCRA Hazardous Waste Classification (40 CFR 261)
Not Applicable

TSCA Status
Exempt from TSCA, subject to FIFRA
